

Extending the Primary Care Practice with Annual Wellness Visits

Primary Care practices take note. As a member of ASPA you have access to a wealth of practice support services that can help you: **add practice revenue, minimize costs, streamline operational support, extend practice capability, meet payor reporting** (MIPS and other reporting) and more.

ASPA created ASPA Empowered Healthcare Services LLC, to **support** ASPA Members. In this Annual Wellness Visit offering, ASPA Empowered provides Nurse Practitioners who will conduct Annual Wellness Visits (G0438, G0439) as an extension of your practice.

What ASPA Empowered offers under your general supervision and control is the following:

1. Telephone and other outreach to your patients based on your guidance to encourage patients to schedule their appointments
2. Use of your EHR or our EHR (at your direction) to document the visit
3. We conduct the visit at your location.
4. You review and sign off as with any other delegated personnel
5. Your practice can bill (or we can) and the revenue is split based on our contractual agreement

All interaction is based on our **representation to the patient as an extension of your practice**. All control and management of the patient is and remains yours.

Your Patient—Your Control—Your Clinical Data—Your Revenue

We know that Annual Wellness Visits, while lucrative, take a lot of valuable time. Time you may not have to give which is why the clear evidence shows that only a small fraction of patients get Annual Wellness Visits today. We aim to change that.

We have no interest in creating a competing entity. ASPA Empowered provides these services on your behalf and for your benefit and those of your patients. We are a true expansion of your practice – ON DEMAND. We can meet your needs now.

Annual Wellness Visits are also key to the **Chronic Care Management Program (CCM)**. In short, more practice revenue, extended value for your patients, and an easy way to scale your practice in a non-threatening on-demand service from ASPA. If you have interest in learning more about our CCM program or the Annual Wellness Visits please contact us as shown below or **fax** this form to **602-265-3289**.
