www.galaxyhealth.net

At Galaxy Health Network, we believe that Medical Cost Containment requires a custom approach suited to the needs of each of its clients individually - not a universal, one-size-fits-all-does-all method. Unlike many companies who claim to have national networks that are actually a conglomeration of rental agreements, Galaxy believes that it can best serve the needs of its clients by providing direct access to providers in the required service areas. As part of its core business Galaxy uses its network development expertise to provide access management for national and regional clients through customized provider recruitment initiatives in specific geographical areas where the clients' needs are most evident.

www.healthnet.com

Health Net, Inc. is a publicly traded managed care organization that delivers managed health care services through health plans and government-sponsored managed care plans. Its mission is to help people be healthy, secure and comfortable. Health Net, through its subsidiaries, provides and administers health benefits to approximately 5.5 million individuals across the country through group, individual, Medicare (including the Medicare prescription drug benefit commonly referred to as "Part D"), Medicaid, U.S. Department of Defense, including TRICARE, and Veterans Affairs programs. Health Net's behavioral health services subsidiary, Managed Health Network, Inc., provides behavioral health, substance abuse and employee assistance programs to approximately 4.8 million individuals, including Health Net's own health plan members. Health Net's subsidiaries also offer managed health care products related to prescription drugs, and offer managed health care product coordination for multi-region employers and administrative services for medical groups and self-funded benefits programs.

www.medsolutions.com

MedSolutions began in 1992 as an owner/operator of diagnostic imaging centers, but quickly saw an increasing need in the managed care industry for intensely focused radiology benefits management. In 1997, we sold our diagnostic imaging centers and MedSolutions set out to focus solely on managing the cost of imaging and helped pioneer the new industry of radiology benefits management. We soon established ourselves as the industry leader, helping healthcare payers control the soaring costs in radiology.

Today, MedSolutions has taken the clinical knowledge, proprietary technology, and forward thinking we perfected in radiology management and applied it to other areas of healthcare where we see opportunity for significant improvement, both in quality of care and in cost savings to health plans. MedSolutions continues to evolve to meet the challenges of the healthcare industry through Intelligent Cost Management, developing and introducing new services that extend beyond utilization management to capture maximum savings, reduce overall treatment costs, and ensure diagnostic accuracy.

HEALTH PLANS

www.multiplan.com

Founded in 1980, MultiPlan is the industry's most comprehensive provider of healthcare cost management solutions.

We have almost 900,000 healthcare providers under contract, an estimated 57 million consumers accessing our network products, and 110 million claims processed through our networks each year, giving us more of the experience and resources healthcare payers in the commercial healthcare, government, workers' compensation and auto markets need to face today's unprecedented cost and competitive pressures.

In addition to offering regional PPO networks in Wisconsin and the southwest, we're the only company that can offer access to the leading independent national primary PPO as well as our complementary network, and negotiation and medical reimbursement services through a single electronic submission.

Prime Healthcare

Saving hospitals. Saving jobs. Saving lives...

www.priehealthcare.com

Prime Healthcare Services and the non-profit Prime Healthcare Foundation employ more than 30,000 people and own and operate 28 acute care hospitals in California, Kansas, Nevada, New Jersey, Pennsylvania, Rhode Island and Texas. Prime Healthcare was recognized as a Top 15 Health System in the nation in 2013 and 2012. It also earned the distinction in 2009.

Eight Prime Healthcare Hospitals in California were recognized among the 100 Top Hospitals in the nation in 2014. Desert Valley Hospital and West Anaheim Medical Center have earned the honor five times. Centinela Hospital Medical Center, Chino Valley Medical Center, Garden Grove Community Hospital were also recognized, each for the third time, in 2014, as well as San Dimas Community Hospital and Shasta Regional Medical Center, for the second time, and La Palma Intercommunity Hospital and Paradise Valley Hospital earning their first recognition in this list.

With nearly 3,000 U.S. hospitals surveyed, the hospitals demonstrated that high-quality patient outcomes can be achieved while improving efficiency. If all hospitals in the U.S. performed at the same level as the 100 Top Hospitals award winners:

- Nearly 165,000 additional lives could be saved
- Nearly 90,000 additional patients could be complication-free
- More than \$5.4 billion could be saved
- The average patient stay would decrease by half a day

In 2014, thirteen Prime Healthcare hospitals were ranked as "Top Performers on Key Quality Measures" by the Joint Commission, the leading Accreditor of healthcare organizations

www.stratose.com

Since 1995, Stratose has elevated expectations in healthcare cost containment. Through a unique combination of people, proprietary technology and analytics, we've delivered remarkable results in claims optimization, saving clients over \$10 billion since inception. We serve payors of all kinds, including insurance carriers, third-party administrators (TPAs), health maintenance organizations, stop-loss carriers, Labor/Taft-Hartley funds and health plans. We currently serve the medical, dental and workers' compensation payor markets.

www.trpnppo.com

Three Rivers Provider Network (TRPN) was founded in 1996 as a company that was contracted to provide services for several major auto clients. At that time, our clients needed to access a network that would grant PPO type discounts without incurring balance billing risks for their members. Over time, given superior results and the high levels of satisfaction of service that were achieved, TRPN was prompted by other companies that focused on group health and workers compensation to perform similar type services for them. TRPN contracts were uniquely designed for group health, workers compensation and auto liability claims expanding existing coverage and significantly reducing out of network expense.

Since that time, TRPN has evolved into the largest and fastest growing proprietary PPO network in the United States. The TRPN network is now comprised of more than 600,000 total providers, including greater than 5,000 hospitals and 70,000 ancillary facilities. Through our clients, approximately 10 million lives now have access to the TRPN PPO network.

Our senior management team each have an average 17 years healthcare industry experience. TRPN is committed to maintaining a quality product with superior levels of service resulting in increased choices for the member along with our clients realizing more value for their healthcare dollars spent.
