

ASPA UPDATE

Plan Updates

Keep an eye out as ASPA is adding a new Medicare Advantage Plan to our portfolio! UPMC Health Plan out of Pittsburgh, PA has added to its Benefits Package an Extended Network Travel Benefit. After researching the past couple years of claims data and surveying it's enrollees, they have discovered that a large number of their population travel to Arizona for the winter. They contacted us to supply them with a network to help cover their enrollees while here in Arizona. We will be sending out an Opt In form to everyone in the week.

Arizona Complete Health Plan – Provider Information Forum

If you have any questions regarding the upcoming Provider Forums, please contact Arizona Complete Health's Provider Engagement Department via email at: AzCHProviderEngagement@azcompletehealth.com

ASPA Connected Community News -

ASPA Connected Community (ASPA CC) is excited to announce that for year 2018 we received shared savings from our Medicare Shared Saving Program contract! Since ASPA CC is a small ACO, we are not millionaires, but as promised all practices who participated will receive a bonus check. These will be delivered over the next few weeks to the PCP's and Specialist who participated (contracted) in 2018. Keep up the good work and hopefully we will do even better for 2019.

We are also very excited to announce the formal partnership of ASPA CC and Wellvana, an organization created by Charlie Martin of Martin Ventures in Nashville. This new partnership will allow real work to be done in the participating practices. We have designed a Quality Incentive Program to educate and incentivize our MSSP providers for improved quality reporting and preventative care for our Medicare patients. This program will provide real dollars, technology and resources to work in the ASPA CC practices. If you are not currently part of ASPA CC and would like more information please contact the ASPA office

Helping the Independent Provider Stay Independent
