## Job Description

We are looking for a licensed Pediatrician to examine and treat little patients and help in preventing diseases and illness complications. The work of a physician can be both difficult and demanding, and even more so when it comes to children. A pediatrician will have to conduct examinations by earning the trust and cooperation of the child.

The ideal candidate will possess a thorough knowledge of children's diseases and epidemiology as well as the established examination procedures for infants. A pediatrician must be patient and caring and able to foster long term trust relationships with the children and their parents.

## Responsibilities

- Conduct regular thorough examinations on newborns and young children to check and record their health and normal physical development
- See 4-6 patients per hour minimum and complete the medical documentation as part of the patient visit, electronically within 24 hours of the encounter.
- Examine sick children to determine their condition and ask intuitive questions to gather information about symptoms
- Reach an informed diagnosis based on scientific knowledge and individual medical history
- Prescribe medications and give detailed instructions for administration
- Prescribe and interpret appropriate lab tests to gain more information for possible infections or abnormalities
- Prepare and administer vaccines according to the governmental vaccination plan
- Examine and treat injuries and refer the little patients to physicians of other disciplines when necessary (e.g. surgeons, ophthalmologists, orthopedists, etc.)
- Advise parents on children's diet, exercise, and disease preventive measures
- Keep updated records of patients' illnesses, surgeries, or other medical episodes (allergic shocks, injuries, etc.)
- Keep abreast of advancements in pediatrics and best practices by attending seminars and conferences
- Candidate must be capable of performing the full range of Pediatric services to include, but not limited to performing circumcisions, preschool and athletic examinations, provide comprehensive and continuing medical care for patients from birth to 21 years of age.

## Skills

- Proven experience as a pediatrician
- In-depth knowledge of children epidemiology and infectious diseases
- Exquisite knowledge of diagnostic, treatment and rehabilitation principles and techniques
- Up to speed knowledge of drugs/medication appropriate for children and their side-effects
- Familiarity with traditional and web-based prescription systems
- Active listener, patient, and calm
- Outstanding diagnostic and problem-solving abilities
- Excellent communications skills
- Medical Degree with specialization in pediatrics
- Valid license to practice medicine
- Bilingual (Spanish/English) a plus

Job Type: Full-time
