

ASPA partners with Vytalize Health

Arizona State Physician Association (ASPA), the largest independent physician association in Arizona with a longstanding commitment to preserving physician autonomy, has partnered with Vytalize Health, the fastest growing value-based care enablement platform in the country. **Together, we're redefining what's possible for independent practices across Arizona.**

The Vytalize Difference

Start earning in 2026 - No waiting for payments

- Our Early Start program prepares practices for ACO participation. Enroll now to earn \$5 PMPM starting in 2026
- Our practices get paid sooner. Advanced Shared Savings are paid throughout the performance year, not 12 months later

Clinical decision support system

- Our Vytal Insights product is a transformative solution that the evidence shows, when recommendations are followed, reduces hospitalizations and can lower mortality rates by **up to 45%**.

Direct integration into YOUR EMR

- Our tools work within your workflow. No separate apps needed

1:1 peer-to-peer clinical support

- Your dedicated Medical Unit includes value-based care physicians that provide ongoing workload relief for your practice

Access to the Vytalize Preferred Specialty Provider Network

- Our preferred provider network gives you a connected community of over 11,000 specialists nationwide

Our Solution

VytalSigns

Our core signals and rewards program in VBC, drives your advances against shared savings.

VytalInsights

Our dynamic AI driven platform that integrates directly with your EMR. Delivering actionable clinical recommendations at the point of care to help providers.

VytalCare

Vytal Care™ extends the patient-provider relationship through our team of clinicians.

Why ASPA Chose Vytalize

At Arizona State Physician Association, our priority has always been to protect physician independence while delivering meaningful results for patients. We chose to partner with Vytalize Health because they bring a proven, physician-first approach that combines financial opportunity, clinical support, and cutting-edge technology. Their commitment to practice transformation and quality outcomes aligns perfectly with our mission. This partnership positions our providers to thrive in value-based care while maintaining autonomy and improving the lives of the patients we serve.

-Karen Ellington, ASPA
