

Please fill out the attached add/drop forms in full. If not fully completed it will be returned and no steps will be taken until the form is completed and returned.

- Mark **Add/Yes** for any plans you wish to be active with.
- Mark **Drop/No** to any plans you do not wish to be active with.

To be sure you are active with the same plans as the providers in your group please reach out to Tonya at tonya@azspa.com and ask for a list of plans. She will get you a list of the plans your providers are with under the ASPA contract. ASPA has noticed that if the providers in a group do not have the same plans this could cause you to have some billing issues and providers not being paid under the ASPA contract. These providers can be seen as Non. PAR. To prevent this from happening to the providers in your group all providers should be under the same plans and active with ASPA.

Each form **MUST** be signed by the provider. Unless your practice is covered by an ASPA Group Contract, then the first two pages can be signed by an administrator. The individual forms for plans must have each provider's signature. If not signed by the provider, it will be returned, and no steps will be taken to load plans until completed and returned. If you do not know if your practice is covered under a ASPA Group contract, please reach out to Tonya at tonya@azspa.com and she will let you know.

A W-9 **MUST** be returned with the forms as the plans will not add without it. The billing address on the W-9 Must match the billing address on file. If it does not match the plan will not add.

ASPA PAYOR PARTICIPATION ATTACHMENT

Please Review the list of Payor Below. Should you wish to make any changes, i.e. add or drop a plan please indicate below.

PLEASE NOTE: If you have changed practices all plans you were contracted with in your previous practice will follow you.

PLEASE NOTE – ASPA's plans retain the right to refuse a provider access to participate under the ASPA contract.

ASPA will make every effort to assist you in this process; we recommend that if you are transitioning from a direct contract or another network into an ASPA contract, you should contact the plan prior to contacting ASPA to make sure they will allow the transfer.

Dear Provider,

SCAN requires all members providing care for SCAN patients to complete the Annual Model Care (MOC) Training.

This training is a regulatory requirement and must be attested to by both primary care and specialty care providers, as they serve our Special Needs Plan (SNP) members. Additionally, the attestation is necessary for us to add providers to our system. Since the Health Plan (SCAN) conducts annual audits of contracted medical groups, having this completed form on file is an important compliance step.

Why Providers Must Complete the Annual Model of Care (MOC) Training

- The MOC training is a **CMS-required** annual training course for all providers caring for Special Needs Plan (SNP) members.
- It ensures we're all aligned in delivering **coordinated, high-quality, and person-centered care** to our most vulnerable populations.
- Completing the training helps improve **member outcomes**, strengthens **communication across the care team**, and keeps our network in **full compliance** with CMS requirements.
- The process is **quick and convenient** — typically under 20 minutes — and demonstrates your continued **commitment to excellence and partnership** in caring for our members.

PLEASE COPY AND PASTE THE LINK INTO YOUR BROWSER FOR THE TRAINING COURSE

<https://training.prospectmedical.com/Statics/docs/SCAN/2025-snp-moc-training.pdf> It is a pdf, approximately 10-15 minutes self-guided course. Only the CA FIDE-SNP section does not apply to the AZ providers.

Please send the attached back to me from each provider in your group. Should you have any questions please reach out to Karen at karen@azspa.com

2026 Attestation of Special Needs Plan Training

Thank you for completing the Special Needs Plan Model of Care training,

The Centers for Medicare & Medicaid Services (CMS) requires Health Plan employees, contractors and providers who serve Medicare Advantage Special Needs Plan (SNP) members to complete an annual SNP Model of Care (MOC) training (Refer to Chapter 42 of the Code of Federal Regulations, Part 422 (42 CFR 422.101 (f)(2)(ii)); Special Needs Plans).

The MOC provides the basic framework under which the SNP will meet the needs of each of its enrollees. The MOC is a vital quality improvement tool and integral component for ensuring that the unique needs of each enrollee are identified by the SNP and addressed through the plan's care management practices. The MOC provides the foundation for promoting SNP quality, care management and care coordination processes.

Please attest below that you have completed the required 2025 Special Needs Plan Model of Care training and SAVE A COPY OF THIS ATTESTATION FOR YOUR OWN RECORDS:
